Kindergarten practice

Listen to an adult, then point to or circle one answer for each question.

Worked example: picture analogy

1. Look at the pair

Bird and nest

2. Say the rule

Animal > shelter

A nest is a bird's shelter.

3. Use the rule

A doghouse is a dog's shelter.

1. Picture classification

A

B

C

D

2. Following directions

A

B

C

D

3. Figural series

A

B

C

D

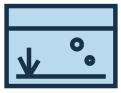
Three more questions

Keep going. You can point to or circle one answer for each question.

4. Picture analogy

A

B



C

D

5. Following directions

A

B

C

D

6. Figural classification

A

B

C

D

After practice, talk about how you chose each answer.

Adult guide and answer key

Give the learner pages 1 and 2. Keep this page for yourself.

Read aloud

Explain the worked example together. Then read each prompt without pointing at an answer.

1. Point to the picture that does not belong with the others.
2. Point to the box with a star below a circle.
3. Look at the shapes in the row. Which shape comes next?
4. Look at the dog and doghouse. Which picture goes with the pet fish in the same way?
5. Point to the box with a small triangle to the left of a large circle.
6. Point to the shape that does not belong with the others.

Answer key

1. D A spoon is a utensil. The other three are clothing.

2. B Only B has the circle on top and the star underneath.

3. D Circle and square take turns. The last shape shown is a square.

4. B An aquarium is a home for a pet fish, as a doghouse is for a dog.

5. A A has the small triangle on the left and the large circle on the right.

6. C C is the only circle. The other three are triangles of different sizes.

These exercises are independent practice. They are not official Pearson test items.
