GRADE 2 / LEVEL C

Listen and choose

Listen to the adult. Point to or circle one answer for each question.

1. Following directions

A Bus

B Train

C Truck

D Boat

2. Arithmetic reasoning

A One

B Two

C Three

D Four

3. Aural reasoning

A The gym

B The outdoor field

C The playground

D The school hall

GRADE 2 / LEVEL C

Look and choose

Listen to the adult and point to or circle one answer.

4. Picture classification

A 

B 

C 

D 

5. Following directions

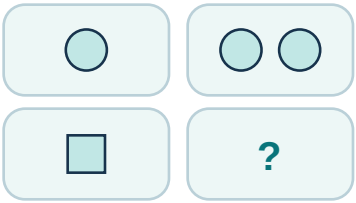

A 

B 

C 

D 

6. Pattern matrix

A 

B 

C 

D 

GRADE 2 / LEVEL C

Adult script and answer key

Read the prompt and any printed answer choices aloud. Pause for an answer.

Read aloud

1. Listen: boat, kite, train, truck, bus. Which word is two places after kite?

2. Mia shares nine shells equally among three bags. She takes one shell from the blue bag. How many shells are left in the blue bag?

3. The team needs an indoor place to practice because of the rain. The gym is locked, but the school hall is open. Where can they practice now?

4. Point to the picture that does not belong with the other three.

5. Choose a small star to the right of a large square.

6. Look at how each row changes from left to right. Which box completes the bottom row?

Answers and reasoning

1. C Count from kite. Train is the first word after it, and truck is the second.

2. B Nine shared equally among three bags gives three per bag. Taking one from the blue bag leaves two.

3. D The hall meets both clues. It is indoors and open now.

4. A A doghouse is a shelter. The bird, fish, and dog are animals.

5. C The square is large and on the left. The small star is on its right.

6. C The top row goes from one circle to two circles. The bottom row follows the same rule, so one square becomes two squares.
